GERMANS WILL PROBABLY SIGN TREATY FRIDAY

Hun Mission Due to Reach Versailles Friday Morning

(By The Associated Press)

PARIS June 21.—(By The Associated Press.)—Officially Friday afternoon has been set as the time for the ceremony of signing the peace treaty of the allied and associated powers on behalf of Germany. While the German plenipotentiaries have not yet been announced advices received from Weimar are to the effect that they will arrive in Versailles Friday morning.

M. Clemenceau will open the ceremonies with a brief introduction. No speech is expected from the Germans. William Martin of the French foreign office as master of ceremonies, will then carry the treaty to President Wilson ad the premiers, who will sign at their seats.

After the treaty is brought back to the signature table, the ames of the other delegates will be called and they will advance and sign.

It is expected that the signing will require two hours. The seals of all the delegates will be affixed in advance; many of them are already in the hands of the French foreign office.

President Wilson is using the president's seal which is an eagle with the words "Seal of the President of the Uintd States."

Some of the seals supplied by the delegates are merely monograms unadorned in striking contrast to the elaborate coats of arms supplied by Premier Paderewski of Poland and other European officials. The French treaty experts regard the Chinese and Japanese seals as the most artistic. These are chiefly the names of the delegates in oriental letters and are adorned with flowers and quaint figures.

The explanation was that strictly personal seals would be used but like President Wilson, M. Vandervelde, representing Belgium is using an official seal—the Belgian coat of arms encircled by the words "minister of justice."

The German delegates will sign after the allies. The order in which the allied delegates will sign after the signatures of the president and premiers are attached will be according to the alphabetical order of the names of the countries they represent. When the signatures are completed the entente party will emerge on the terrace at the side of the palace where all the great fountains will be playing in the gardens. The Germans will leave on the side where they entered.

(By The Associated Press.)

Friday afternoon probably will witness at Versailles the signing by Germany of the peace treaty of the allied and associated powers.

The German plenipotentiaries armed with authority to affix their signature to the document which is in a measure, to rehabilitate Germany in the eyes of the greater part of the world as no longer an enemy power, are due to arrive in Versailles Friday morning.

Mueller to Head Mission.

Herr Mueller, foreign minister in the new cabinet of Herr Bauer, is expected to b ethe chief German preliminary, Dr. Haniel von Haimhausen, who was to have signed the treaty for Germany, having resigned from the peace delegation, not desiring to have the onus of sealing the compact, to the terms of which he and other high members of the government object, fall on his shoulders.

Even the new premier in Germany continues to express indignation over Germany being compelled to meet the allied terms. In his latest address before the national assembly at Weimar, Bauer is quoted as having said:

"Let us sign, but it is our hope that to the last breath this attempt against our honor may one day recoil against its authors.'

The new Italian delegation to the peace conference made necessary by the resignation of the cabinet of Signor Orlando also is expected to reach Versailles Friday. It will be headed by Signor Tittoni foreign minister.

To Investigate Sinking.

The sinking of the German fleet in the Scapa Flow by the skeleton crews of Germans who abandoned them, is to be investigated by order of the council of three, composed of Premiers Clemenceau, David Lloyd George and President Wilson. The idea of the investigation is to ascertain if the armistice terms were violated by the Germans. The French minister of marine says France will require complete reparation from Germany.

The council has resumed its work on the provisions of the Austrian treaty which were not included in that part of the document recently handed the Austrian delegation at St. Germain. It is expected that the treaty now will be speedily concluded.

The Turkish delegaion has sent to the council of ten a detailed memorandum of the requests recently made orally in behalf of Turkey. Turkey's wilingness to recognize the independence of Armenia and a sugestion to grant a sort of antonomous government to Palestine and Arabia under Turkish governors were made known in the memorandum.

Belgium is to have priority in reparations to be paid by Germany to the extent of 2,500,000,000 franes. Formal approval has been given this decision.

Describes How M. Clemenceau Recieved Note

[By The Associated Press.]

PARIS, June 24.—"We have waited 49 years for this moment," exclaimed Premier Clemenceau as he opened the fateful dispatch announcing that Germany would sign the treaty at the meeting of the council of three this afternoon. "For 49 years," he continued, "the mailed fist of the reitre (German trooper) who has governed Germany has menaced the world. Whether the man's name was Bismarck or William II it was the same reitre of the middle-ages surrounded by soldiery and drunk with pride.

"Be careful; Keep your powder dry. Be careful. Remind the world that it is living on a barrel of that powder.

"This reitre's dogma that might is right, that a state's anly obligation is its own interest, that treaties do not exist when they clash with the interest of a state and get rich by any means. We know from witnesses who were at the side of William II that when he learned of the Sarajevoz tragedy he who posed as a keeper of the peace, cried, 'the hour has struck. We shall see what an army is.'"

This story of how the French premier received the news was told at a dinner given by the economic commission of the conference in honor of the French delegation by Etienne Clementel, former minister of commerce and agriculture tonight. The minister concluded his speech with eulogy of the league of nations, which he said was "at present the world's hope."

"Toward this magnificent and impressive innovation," he said, "I ask you to direct all your thoughts and to uplift your hearts in this great act of faith, hope, and tlove."

Herbert Hoover, chairman of the inter-allied food commission, and Signor Crespi, a member of the Italian delegation also spoke.

CALL OFF WINNIPEG GENERAL STRIKE

WINNIPEG, Man., June 24.—The general sympathetic strike which has been in progress here since May 15, was called off tonight.

DENOUNCES "DEMOCRATIC VACILLATION"

Poindexter Says G. O. P. Mission is to Save Republic

[By The Associated Press.]

NEW YORK, June 24.—Senator Poindexter, Republican, Washington, told the fifteenth district Republican Club here tonight that "tthe misison of the Republican party in the immediate future is to save the republic from the process of national disintegration in progress during the present administration."

Denouncing "Democratic "vacillation and weakness in dealing with Mexico," Seator Poindexter said the Republican party should elect a president who would fulfill the responsibilities the nation had assumed in Mexico and "reassert American honor and self-respect, so that our citizens, lawfully in that country, would not be forced to ransom their lives with money."

"The suggestion in some quarters," he continued "that Great Britain should be invited to restore order in Mexico should be denounced ag false to our fundamental policies, and a Republican congress should restore order in Mexico and adjust, on correct principles, its international obligations."

Advocates Repeal of Act.

Senator Poindexter advocated repeal of the "act of the Democratic congress and president internationalizing the Panama Caal"; "repudiation of the promise of the Democratic administration to haul down the American flag in the Philippine Islands"; repeal of the extra-ordinary powers vested in the president during the emergency and speedy reduction of war taxes thru elimination of waste and efficiency and the framing of a tariff bill to protect industry and maintain wages.

Turning his attention to radical agitators the senator said it should be the first care of a Republican administration to stamp out of the country the propaganda of anarchy and revolution.

"The alien advicates of enforced communism and confiscation," he said, "should be returned at once and without exception to the country whence they came."

"The new doctrine of interationalism advocated alike by the kaiser and his Socnalist followers and by the anarchists and bolshevists of Russia and America should be combatted as fatal to our institutions. The effort of the internatioalists to 'join our fortunes with the fortunes of men everywhere' and to form a United States of the World, should be opposed as wholly inconsistent with American independence and a menace to liberty."

ARRANGE TO MERGE INTERNED DISTRICTS

CHICAGO, June 24.—The peoria internal district will be merged with the Chicago district July 1, it was announced here today. It was also made known that plans are under way for consolidation of the Springfield and East St. Louis districts with headquarters at the former city.

The new plan will add 11 Illinois counties to the Chicago district and bring the total to 30 counties. About $300,000,000 additional taxes will be collected here.

A small office will be maintained in Peoria but the main force will be moved to Chicago. Edward McCabe is collector at Peoria.

POLICE INTERVENE IN FOOD RIOTS

BERLIN, June 23.—Monday—(By the Associated Press)—Police and soldiers who intervened in food riots in the northern suburbs of Berlin today exchanged shots with mobs of men and women, but there were no casualties. A number of shops were plundered.

Reports from Mannheim say that eleven persons were killed and thirty-seven wounded during the rioting there Sunday. Two hundred persons were arrested.

TO DRAFT RAIL BILL.

Washington, June 24.—First definite steps looking to the drafting of general railroad legislation was taken today by the senate interstate commerce committee in authorizing a sub-committee headed by Chairman Cummins to draft a tentative bill. Senator Cummins said he hoped to submit the measure within a month and that further hearings might be held.

PLANS TO PAY FOR BONDS IN 5 YEARS

For Dodge, Iowa, June 24.—The government plans to have the liberty bonds entirely paid for within twenty-five years, according to a statement by W. P. G. Harding, governor of the federal servere system, in an address before the Iowa Bankers' convention today. He termed the federal reserve the "financial fire department of the world."

Outlines Plan To Re-Organize Illinois Guard

[By The Associated Press.]

SPRINGFIELD, Ill., June 24—Colonel Joseph B. Sanborn of Chicago, will command the first infantry, Colonel Abel Davis of Chicago, will head the second infantry and Colonel Henry J. Reilly of Chicago, will have charge of the Seventh infantry of the reorganized Illinois National Guard, according to a statement given out late this afternoon by Adjutant General Dickson. With the allocation of a division to the state, Colonel Joseph B. Sanborn will assume command of the entire organization with rank of major general.

The statement outlines the first comparative plan for re-organization of the Illinois guard and points out that in this "reorganization it is planned to utilize such personnel of our reserve organization as may be available and desire to enter this force."

Adjutant General Dickson says in the statement that it is expected that the federal government will assign a division to Illinois.

Plans for the re-organization of other branches of service aside from infantry together with the appointment of officers will be taken up upon receipt of word of definite allocation of these units from the war department at Washington.

The statement of Adjutant General Dickson in part follows:

"With the draft into the federal army of the Illinois National Guard for service in the war with the central powers the federal government under the provisions of the act of congress June 3, 1916, held that such draft automatically discharged the personnel of the National Guard from state service. In the absence of this national guard there were created in the state three regiments under the military code and a number of regiments and separate units under the militia reserve act. With the cessation of hostilities it becomes desirable to re-organize the Illinois National Guard. This re-organization will be the permanent military establishment of the state. In this re-organization it is planned to utilize such personnel of the former national guard units as saw service overseas as may be available and desire to enter this force and to utilize such personnel of our code and reserve organizations as may desire to enter this force. In the allocation of force we are expecting the federal government to assign to Illinois a division. The desirability of reorganizing as rapidly as possible being obvious, as well as the desirability of placing in command of our re-organized force, officers who have had overseas service. The governor has directed the initiation of this re-organization by appointing Colonel Joseph B. Sanborn to command the reorganized first infantry; Colonel A. Davis to command the re-organized second infantry and Colonel Henry J. Reilly to command the re-organized 7th infantry. The seventh regiment will be reorganized as an infantry command.

"By this action the state initiates an organization to which will probably be added additional units of the several arms and branches of service when definite allocation is made by the federal government. These additional units will be constituted as a part of continuous organization action. With the allocation of a division to the state the governor will designate Colonel Joseph B. Sanborn at present commanding the first infantry as major general to command the Illinois division."

CHARGES CAUSE WRANGLE.

Washington, June 24.—Charges that selfish and sinister influences were at work in behalf of Secretary Lane's project for farms for soldiers and sailors caused a wrangle today in the house public lands committee.

Temporary Lull In League Of Nations Debate

(By The Associated Press)

WASHINGTON, June 24. — There was a temporary lull today in the league of nations debate which has been almost continuous since the new senate convened. It was the first time in more than a month than a entire day's session passed without a mention of the peace treaty. In its consideration of the army appropriation bill the senate did nat take up the amendment presented by Senator Fall, Republican of New Mexico and favored by many league opponents, to decare the war at an end. Technically the amendment was killed when a section of the bill to which it had been attached was stricken out on a point of order. This is not expected actually to affect the proposal however, as it ca easily be re-submitted and incorporated in another part of the appropriation measures.

When the amendment finally is reported the prospect is that it will be ruled out of order after it has furnished the vehicle for a debate on its properiety. In the event it is thus rejected, Senator Fall is expetced to try for action later on the joint resolution he introduced yesterday embodying a simple peace deleclaration.

The result of the day's developments, however was to again throw the entire situation into a state of uncertainty. Some league oponents are said to be undecided about the wisdom of the Fall resolution and others are understood to look with disfavor upon any effort to press it to a vote for the present. There wer iendications tonight that the foreign relations committee may not take up the measure as had been expected at its meeting tomorrow.

HUNS BURN FRENCH BATTLE FLAGS

PARIS, June 24.—Word of the burning of certain French battle flag by the Germans has been received here. Peace conference opinion is apparently unanimous that this a distinct violation of the peace treaty, inasmuch as that document stipulated that the flags shouldd be returned to France by Germany. It is probable that a commission will be appointed to consider taking action in the matter.

Presumably the foregoing refers to French battle flags taken by the Germans in the war of 1870-71. Article 245 of the peace treaty, in the original draft, stipulated that within six months after the treaty should take effect Germany must restore to France the trophies, works of art, etc., carried from France by the German authorities in the Franco-Prussian war "particularly the French flag taken in the course of the war 1870-71."

Brest, June 24.—The transports Menominee and Porto arrived here at noon today, bringing from Archangel the last of the American troops there except engineers left to clean up the American base.

Brig. Gen. W. P. Richardson, commander of the American forces in northern Russia was aboard the Porto.

Senate Adopts Amendments To Army Bill

[By The Associated Press.]

WASHINGTON, June 24. — Without a record vote the senate tonight adopted committee amendments to the army appropriation bill providing for an average of 400,000 men for the year beginning July 1. The bill as passed by the house provided for an army of 300,000 and Secretary Baker had recommended that the total be placed at 509,000 officers and men.

The senate by a vote of 27 to 22 adopted an amendment offered by Senator France, Republican of Maryland and modified by Senator Reed, Democrat of Missouri limiting the salary of C. W. Hare, director of sales and in charge of disposal of war materials to $12,000. Mr. Hare now is being paid at the rate of $25,000 a year.

During the discussion Senators McGellar, Democrat, Tennessee and Reed, criticised the manner in which war materials were being disposed of by the government and especially the surplus supply of meats, estimated to be worth $65,000,000. Senator McKellar called attention to a newspaper item which said that all bids for this meat had been rejected because they were too low and charged that the packers were being especially favored by the war department in the disposal of this meat. He asserted that Mr. Hare "is the only man in the United States that can be found who says that this meat must not be sold so that the people can get the benefit, but that it must be put on the market so that only the packers can get it."

"Did Mr. Hare make the restriction that it can only be sold in carload lots?" asked Senator Lenroot.

Chairman Wadsworth said he did not know but asserted that if this meat were sold in smaller quantities or if the government were compelled to open stores for the purpose of retailing it, that a much larger appropriation would be required. He said applications for bids had been sent to 40,000 retail dealers and others by the war department.

"I cannot see," he added, "that anybody is criminally negligent in this matter. I don't think that the secretary of war or the director of sales can be particularly blamed for the public's refusal to buy these goods."

Senator Reed criticised the sale of $20,000,000 worth of airplanes for $2,000,000 by the war department and said he thought some explanation of this matter should be made.

The senate also accepted the committee amendment authorizing the war department to turn over the Red Cross material and hospital supplies not needed by the American expeditionary forces, for relief work in Europe.

SEND MEMORANDUM TO PEACE COUNCIL

PARIS, June, 24.—The Turkish delegation which appeared before the council of ten June 17 sent the council today a detailed memorandum which it promised at that time to draft. This memorandum gave at length the plea for the countinuance of the old Turkish empire, which was made orally before the council at the hearing last week. The memorandum states that the Turkish government is prepared to recognize the independence of Armenia and to grant some form of autonomous government to Palestine and Arabia under Turkish governors.

RIGHT TO HAVE LIQUOR IN HOME WEATHERS FIGHT

Vote Down Amendment to Prohibition Enforcement Bill

(By The Associated Press)

WASHINGTON, June 24.—A man's right to store liquor in his home for the long dry period after July 1, stood up today against an attack on that provision of the prohibition enforcement bill before the house judiciary committee.

Near the end of an all-day session the committee voted down an amendment which would have made it unlawful for a citizen to have liquor in his possession, struck out a section which would have prevented "use" by a citizen of liquor in his private dwelling, and decided that in the matter of general enforcement there would be no difference between war time and constitutional prohibition.

Consider Bill all Embracing:

Even with this and other changes the bill as it will be reported out tomorrow or Thursday is considered as all embracing. So drastic are its provisions, members of the committee said, that while a man may put a keg of beer in his cellar he may be convicted and fined if, for instance, he wears a watch fob on which there is a picture of the keg as an advertisement.

In a general consideration of the measure the committee made a number of minor changes, but the principal fight was over the question of the right of home storage for personal use.

Representative Morgan, Republican of Oklahoma, endeavored to have stricken out the section reading that "it shall not be unlawful to possess liquor in one's private dwelling while the same is occupied and used by him only as his dwelling."

Ardent prohibitionists on the committee voted against the Morgan proposal, for the reason, they said, that nothing was to be gained by enacting a law so drastic as to arouse the hostility of people who rejoiced that the day of the saloon had ended. Prohibition members supported an amendment eliminating the proviic that the liquor must be obtained and placed in storage prior to the date the act would become effective. As amended the section reads: "that such liquor need not be reported, provided the burden of showing that possession is legal is upon the possessor."

Representative Guard, Democrat of Ohio, led the fight to strike from the bill the word "use" as applied to the right of home consumption. His motion to amend also included the striking out of the words "give away," "receive" and "possess," but the committee insisted that these could stand. It was said there was no particular fight on Mr. Guard's proposal and as amended the section stands:

Amended Section Stands.

"That no person shall on or after the date when the Eighteenth Amendment to the constitution of the United States goes into effect nor while the war prohibition act shall be in force, manufacture, sell, barter, give away, transport, import, export, deliver, furnish, receive or possess any intoxicating liquor except as authorized in this act and all the provisions of this act shall be literally construed to the end that intoxicating liquor as a beverage may be prohibited. Liquor for non-beverage purposes and wine for sacramental purposes may be purchased, sold, transported and used as herein provided.

"Every person legally permitted to have liquor is required to report to the proper authorities within ten days after the passage of the act and possession after that date by any person not legally permitted under this title to possess liquors" shall be regarded as evidence that it is kept for purposes of sale. This however, does not apply to home stocks.

The bill's definitiotn of what is intoxicating liquor—any beverage or product containing more than one half of one per cent alcohol—was retained. It was said that members of the committee discussed this section at length some contending that if one congress undertook to define intoxicating liquors as one half of one per cent another congress could come along and make it four per cent or any figure it chose. There was just a danger, members said, that prohibition would get into politics.

Representative Guard appointed last year with Chairman Volstead and Representative Whaley of South Carolina to draw up a bill for enforcement of war time prohibition, endeavored to have the committee substitute his bill. Chairman Volstead ruled against a motion to this effect and was sustained. It was said that the war time measure was more liberal in its provisions but as the committee had refused to separate war time and constitutional prohibition it was unwilling, members explained, to make any distinction in the matter of enforcement.

Gov. Lowden was honored with the degree of doctor of laws by three colleges or universities this year. These degrees were added to a long list that the chief executiv of the state already had to his credit. No doubt these honors are appreciated by the governor but do not in any way seem to disturb his mind or to prevent him from sticking steadily on the job as governor.

WILDCAT SPECULATION

An effort is to be made to curb fake companies from selling their stocks to persons not familiar with business and who by these investments are euchered out of hard earned wages. Since the war closed the records show that many of these wildcat companies have been preying upon the wage earners and the government estimates that millions of the people's money has been lost in this way.

The proposed measures for regulating these companies are praiseworthy indeed. The government should be just as much interested in putting an end to business of these fake companies as if the mails were used to defraud.

STILL GOING UP

So many methods for solving the high cost of living have been suggested and have failed that the public shows little interest these days in suggested measures of relief. Neither do the people express much surprise now at prices quoted on necessities. Statistics show that living costs are still mounting and that in a recent month the increases on 22 different commodities averaged 2 per cent by comparison with a year ago.

Nowadays people seem to take these increasing costs as a matter of course, but certainly sometime the high point will be reached.

A BOY PROBLEM.

The police department is quite concerned over what action to take with reference to a group of twelve or fifteen boys, ranging in age from 12 to 15 years. They constitute a gang which has been operating for several months committing petty thefts. Lately they have devoted particular attention to gathering up sacks from barns or other outbuildings and selling them. Owners of sacks noticed the disappearance of so many that the matter was reported to the police and the investigation followed.

Most of these boys are not instinctively bad but have fallen into unfortunate companionships and have had no proper direction of their energies. In some cases the home environment is bad. To arrest these boys and send them to jail or even to a reform school is not likely to better them much. In fact in most instances the boys are likely to come out of the school worse than they are now. This is merely a problem of boy life for which some solution must be found if the boys are started on the way that leads to permanent reform instead of being helped along the downward way.

THE CITY'S FINANCIAL TROUBLES

The mayor has indicated to members of the city council that the statement of the city's financial condition prepared by Price-Waterhouse & Co., will be received in the course of this week. Not until this report has been examined carefully are members of the city administration likely to say much about city finances. Nevertheless it is known that the problem is worrying them and that they realize something must be done to establish the city's credit, get rid of the floating debt of $125,000 to $140,000 and then keep income and expenditures on the same basis.

No doubt there will be some discussion of a budget system for the city, as the budget system has come into such favor for cities, counties and municipalities in these latter years. Anyone familiar with ordinary business conditions knows that the city cannot expect to prosper—cannot expect to conduct its affairs economically or to get 100 cents worth for every dollar expended until it has an established credit and is known to be able to meet its indebtedness or to pay cash.

There are just two ways by which the city's floating debt can be paid. One by the issuance of bonds, the other for kind-hearted citizens to take on the obligation themselves in a personal way. It is not likely that any individual or group of individuals will be so carried away with generosity or local patriotism that they will want to pay this big floating debt from their private funds.

MR. GARY IS OPIMISTIC.

When E. H. Gary, chairman of the board of directors of the U. S. Steel corporation, said the other day that "there is no danger of industrial demoralization or revolution in this country," he might be charged with personal interest. But those who have followed Mr. Gary's statements made in past years will remember them as very frank and free from bias. He has not always been optimistic and subesquent events have usually indicated the value of his judgment. So at this time Mr. Gary's statement will beget confidence in the present industrial situation. Mr. Gary has faith in the working people of this country and does not believe that any large number of them could be induced to participate in any attempt to override law or order.

Since there is no doubt but that if the industrial conditions continue satisfactory, the country will continue in a marvelous course of prosperity, Mr. Gary is lokoing toward the future in a most hopeful way. It is a prophecy helpful to both labor and capital.

Rippling Rhyms
By Walt Mason

Hard to Please.

If a man is not contended with this gold old world in June, if his aching grief is vented in a pessimistic tune, he is hopeless he is chronic, he is full of prunes and bile, and there is no earthly tonic that will brace him up to smile. For in June the world is gaudy, everything's a sight to see, and the mansion and the soddy should alike be full of glee, and the schoolboy should be beaming as along the road he swings and the grandsire should be dreaming of a lot of pleasant things; and the farmer with his horses should explain how good he feels, the mortican with his corses should be kicking up his heels. There is something out of kilter with the sad desponding loon who will let his sorrow filter thru hi countenance in June. If a man is grim and sober, shy of happiness and vim, on a bleak day in October, I can ympathze with him. If a man is far from merry, if he mutters a "Gee Whiz," in the blast of January, I can mix my tears with his. If the language he'd dismember, seeking words that sear like sin, in the middle of December, I can hail him as a twin. But this rosy month is wandering and I'd give no picayune for the man who is complaining in the happy days of June.

STAR CAMP R. N. A. INITIATED CANDIDATES

Twenty-Eight Members Received Into Order—Work Done Under Supervision of Mrs. Dell Newton of Peoria.

At the regular meeting of Star Camp No. 171 Royal Neighbors of America held Tuesday evening in Woodmen hall twenty-eight candidates were initiated into the order.

The work was in charge of Mrs. Dell Newton of Peoria, state supervising deputy of Illinois. Ninety members were present and the occasion one of interest to all.

Mrs. Mary A. Olds was selected as sitting representative of Star Camp in the Community Council which is being organized. A social hour followed the business session and work and refreshments were served.

NAME OMITTED.

In the list of fallen heroes of Morgan county published recently the name of Thomas F. Coney was omitted. He died in the overseas service. If there were any other names omitted the committee will be grateful for the information, as it is very much desired to have the list correct and complete for July .

GENERAL BELL PAYS TRIBUTE TO HIS MEN

PRAISES LOYALTY OF SOLDIERS OF 33rd DIVISION.

Two Commanders of Famous Prairie Division Visit Springfield to Take Part in Home-Coming Celebration Yesterday.

A number of local world war veterans members of the famous 33rd Division planned to attend the Home-Coming Celebration in Springfield yesterday and again see their commander, Major General George Bell, Jr. General Bell was in command of the division from the time of its formation at Camp Logan until the armistice was signed. Speaking at the celebration in the Capital City yesterday afternoon General Bell paid high tribute to the men of the division in an inspiring address.

Gen. Bell was accompanied to Springfield by Brigadier General Henry D. Todd, who commanded the 33rd divisional artillery and by his aide, Captain Evan A. Woodward. Before participating in the parade and the exercises at Washington Park, the distinguished visitors paid a visit to Lincoln's monument and to other points of interest. The two generals with Governor Lowden led the parade to the reviewing stand.

General Bell's address at the Washington park exercises was the chief number of the Home-Coming program. In part it follows:

Did Their Duty.

"Springfield may well be proud of her boys, not only of the men of the Thirty-third division, whom I had the honor to command, but of each and every one of them, from officer to buck private. They all did their part without slacking and the glory of their deeds is indelibly written on the annals of time.

"I must say a special word of praise for the men of the Thirty-third, the men who were with me from Camp Logan until the signing of the armistice. No words that I can say properly portray the merits of these men; you know what they did as well as I, but in the end it was only what one might expect of men who came from the state of Lincoln of Grant and of Logan.

"The men of the artillery section of the division were not under my command during the actual fighting, being attached to other divisions. But their records show that during their stay in France they were in as much hard fighting as any artillery unit of the entire army and in all their work they did well. Men of the 124th field artillery, I salute you.

Real Fighting Men.

"And you men of the infantry, you who were with me when we fought with the British, the Australians, the French, and last in our own incompatable American army. There were no stragglers, no slackers among you. You received the highest encomiums of the allied commanders. From the time you left Texas to the time of the signing of the armistice not a man in your division was tried before a court martial. You were a hand picked division, strictly American, and the equal of any fighting troops of the world."

Brigadier General Todd spoke especially of the men of the artillery section, he having been in charge of that branch of the Thirty-third division. Todd, like General Bell was high in praise of the boys of the Prairie Division under his command.

REPORTS FROM LAKE GENEVA CONFERENCE

Grand College Y. M. C. A. Gathering—Illinois College Sends Fine Delegation Headed by Edward Tomlinson—Win Athletic Honors.

The Y. M. C. A. gathering at Lake Geneva this year was especially good, more than a thousand attending from twenty-seven different nationalities. From this city Illinois College sent the largest delegation with Edward Tomlinson as captain. They were Edward Tomlinson and Francis Thurman, returning to this city; Homer Thompson who will be in Wisconsin for the summer; Henry Brest in Chicago; Mack Peters to Nokomis, and William Fiedling to Springfield.

Among the states represented were Illinois, Michigan, Wisconsin, Ohio, Iowa, North and South Dakota, as well as China, Japan, Siam, Philippines, Siberia, Africa. Mr. Tomlinson brought a superb photograph of the convention and aming the banners conspicuous are Illinois college, Mr. Tomlinson holding one end, Indiana, Normal, Penn, Grinnell, Cincinnati, Illinois Wesleyan, Northwestern, Purdue, Siam, China, Knox, Mt. Morris, Ames, Northwestern College, Wooster, Muskingum , Defiance, Huron, Elmhurst and others.

Eminent speakers were there, among them John R. Mott, "Dad" Elliott, Rev. John Timothy Stone of Chicago ,Raymond Robins, Bishop McDowell, being the most prominent ones.

There were all sorts of programs and that religion was never designed to make our pleasures less was well demonstrated. There were Bible conferences when speakers of great ability took part and there were athletic events, Illinois athletes winning the championship in baseball and track meet with Edward Tomlinson as captain. The members were treated to a trip about the lake and a large delegation numbering nearly 300 went down to Chicago where they visited the Chicago university, the packing plant of Armour & Co., and were dined by Sears, Roebuck & Co. Mr. Stone took them thru his famous church which is claimed to be the most superb and thoroly equipped in the central west.

The time was well spent and most profitably. The boys had the pleasure of meeting Glidden Reeve a graduate of the Jacksonville high school and recently a student at Knox from which he went as a delegate.

What Does It Mean?

It simply means that should you now have occasion to visit our tire repair shop you would easily understand why your tire deliveries have been delayed.

The Rest of Our Complete Equipment is Now Here

Upon your entrance to our shop, "Oh! Now I see," would be your first words.

We could have finished your work sooner by making use of other molds. But this would not have been doing justice to either you or us. For the system we are now using is far ahead of any other equipment we could have secured.

Bring your old tires to us and let us repair them right so that they may give you the greatest possible service. We guarantee our re-treads for 3,500 miles. And don't forget our work is all hand built.

See the NEW ELGIN SIX today.
Only two models left at the old price.

These are two of the best values on the market.

Also we have two model 85 Overlands in first class condition. Either one is a real bargain.

An Uninterrupted Trust

Suppose, in your will, you have created certain trusts which will continue for years after your death. Let us assume that the trustee you have named is an intimate friend or a relative. And suppose he dies, as all individuals must, his death occurring before the completion of the trust. What complications may arise in the choice of a new trustee? What difficulties may he not encounter in taking up and comprehending the affairs of the estate and the plans which governed his predecessor?

Would it not be far better to name a Trust Company—this one—which cannot die, and give your estate the assurance of continuous management, no matter how far into the future the trust extends? At any rate, let us discuss this important matter with you.

FAMILY NIGHT AT GOSPEL MEETING

Threatened Storm Keeps Many Away but Did Not Dampen Enthusiasm—Evangelist Says Everybody Must Get on God's Territory.

The threatening weather interfered considerably with the attendance at the big gospel tent on South Main street last night, but did not throw any damper on the enthusiasm.

It was "Family Night," and Evangelist Mitchell had promised a Bible to the largest family that should be present and sitting together. Two families tied for the honor, those of E. E. Beastall of West Pennsylvania avenue and J. R. Godfrey, South East street, each numbering eight, including the parents. Mr. Mitchell presented the Bible to Mr. Beastall, with the promise of one for Mr. Godfrey tomorrow night.

Mr. Mitchell chose as the text for his sermon Ephesians 4:9. It is an awful thing, he said, to be "past feeling," to have the "Heart blinded," and the "Understanding darkened"—to be given over by God "to lasciviousness, to work all manner of uncleanness with greediness." The young man who the other day, when led to the gallows for murder declared flippantly, "I die game; let 'er go," was past feeling.

When I was a boy we had a fearful tornado where I lived. All afternoon there was a most oppressive calm. We did not know what it meant. But toward night the tornado came, leveling everything before it. You may be without feeling in regard to your sins, but beware, the storm of God's wrath will come sooner or later.

If only Jesus Christ can get into the hearts of men—into the heart of the world—all the ills of society would be cured. The spirit of brotherhood, of democracy, of service, would become universal if only Jesus could get into all hearts. Let Him into your heart tonight.

In response to the invitation six persons came forward for prayer, and all professed conversion. Six young men and ladies also came forward to consecrate themselves to some form of Christian service as a life work.

Young People Tonight.

Tonight is young people's night. Following the regular service there will be held on the lot back of the tent a College Field Meet. A most delightful program is promised, and a most urgent invitation is extended to all young people to be present.

The prayer meetings this morning from 9:30 to 10:00 a. m., will be held at the Brooklyn parsonage, 214 Bissell street., and at the homes of Mrs. Chas. Sheppard, 1201 South East street and J. W. Cooper, 1416 South West sareet.

ENDEAVORERS OPEN DISTRICT CONVENTION

Christian Church Societies Open Meetings in State Street Church —Program One of Interest.

A pleasant sight yesterday was to see young people from the counties of Morgan, Scott, Cass, Jersey, Greene and Calhoun gather at State Street church to discuss means of furthering the interests of the Redeemer's kingdom. The slogan of the convcention is "Smile, Sing and Serve" and they are doing it in good shape. In the absence of the president, Mrs. Roy E. Jokisch of Virginia, Mrs. A. L. Hager, treasurer, of Beardstown presided very ably. Registration and assignment occupied the hours immediately preceding the evening session.

A fine audience gathered for the evening program which was opened with a song service led by Ernest Fernandes of Northminster church. Rev. W. J. Evans, pastor of the Christian church at Winchester, conducted devotional services and then Miss Laura Bell Stephens, intermediate superintendent of Illinois, was introduced. The young lady is a talented speaker and was cordially greeted.

Pointed Questions.

Her address was decidedly unique and original and was well received. She said she wondered how many of the audience could tell the most important event which took place in the region of Augustus and during the reign of Tiberias. During the reign of the former the Savior was born and during that of the lattter, He was crucified. She wondered how many could give a complete narative of the life of Christ of the life of Paul. If Sunday school scholars were thus taught they would know more and far more satisfactorily.

She then proceeded to give a narrative of the life and career of Queen Esther in a charming, plain conversational manner. A few points are given.

About 500 years before Christ Xerxes was king of Persia and was a mighty monarch ruling over a vast area and possessing immense wealth. His fleet was beaten in Grecian waters and he went back to his capital a sadder and wiser man. His palace was gorgeous beyond immagination almost, and his pride and arrogance were immense. In the bible he is called Ahasuerus as mentioned in the book of Esther. He gave a great feast and when he and his lords were flushed with wine he sent for his queen, Vashti to appear before them. It was wholly improper for a woman to be seen on such an occasion and Vashti very properly refused. In those days the woman was wholly subservient to the husband and Vashti was banished in disgrace and a decree went out summoning to the place the beautiful and attractive maidens of the realm that the monarch might select a wife and his choice fell on lovely Esther.

Haman was a high favorite of the king and was greeted with great subservience by all except Mordecai, a gate keeper and cousin and foster father of Esther. The conduct of Mordecai greatly troubled Haman and he succeeded in having a decree that all the Jews in the realm should be slain and he erected for Mordecai a gallows fifty cubits, about 88 feet high and gloated on the prospect of seeing this hated man swing in mid-air.

Saved King's Life.

Now it happened that once on a time Mordecai had overheard a plot to kill the king and had exposed it and saved the royal life and one night the king was unable to sleep and sent for the records to be brought in and read to him and it was done and he heard the story of what Mordecai had done and asked if he ever had been rewarded. They said not and so the king asked Haman what should be done for the man whom the king delights to honor and Haman supposed of course the king meant him and he said put on the king's robe and let him ride the king's horse and be greeted royally and the king told him thus to treat Mordecai.

Meanwhile Esther and her maids had fastened and prayed that the awful decree might be averted and she asked the king and Haman to come the second time and when asked what she wanted she told the king she wanted clemency for her people for they had been condemned to death. He asked her who had done this and she said Haman and the king turned on him fiercely and had him hanged on the gallows prepared for Haman.

Miss Fern Haigh then sang very acceptably after which E. P. Gates, state superintendent spoke in place of Rev. I. W. Bingman. The gentleman is full of vim and fire and is well worth hearing. A song closed the formal exercises and a social time was enjoyed. Today many eminent speakers are promised.

BAPTIST CHURCH ANNUAL PICNIC

Was Held at Nichols Park Tuesday—Rain Mars Event But More Than 100 Were Present.

The annual picnic of the members ad others went out later, held at Nichols Park Tuesday afternoon. At 3 o'clock a special car took out some of the memmers and others went out later. However, the rain which came up late in the afternoon kept many of the older members away.

It was the intention to hold the picnic on the south side of the lake but after the rain started hey moved over to the pavilion on this side. A feature of the occassion was the athletic contests indulged in by the young people of the church. These were in charge of Lindley Williamson. The only thing to mar t hese events was an accident to Mrs. Fuller who fell in the fat women's race and received her shoulder and recived several cuts and bruises.

The athletic events resulted as follows:

50 yard dash for boys won by Elbridge Lumley.

50 yard dash for girls under 11years, won by Gladys Hurst.

100 yard dash for all boys, prize, pocketbook, won by Frank Imhoff.

Fat woman's race, won by Mrs. Hurst.

220 yard dash, won by Elbridge Lumley.

100 yard dash for boys under 14 years won by Louis Gard.

220 yard dash for boys under 14 years won by Louis Gard.

Hop step and jump won by G. Lumley.

100 yard dash for girls won by Miss Stubblefield.

MRS. DICKSON @ETS D. S. C. AWARDED SON

Distinguished Service Cross Citation of General Pershing is Received from War Department.

Mention has already been made of the post-humous citation of First Lieut. Harrison A. Dickson for gallantry in action at Chipilly Ridge ,France, where he lost his life Aug. 8, 1918. Recently Mrs. Annie C. Dickson who is private secretary to Andrew Russel, auditor of public accounts, received from the war department the distinguished service cross citation, signed by General Pershing. Litut. Dickson was in the overseas service with Co. F of the 131st infantry, having entered the service with Co. B of this city. His splendid military record is well known to the people of Jacksonville.

Accompanying the citation was the following letter to Mrs. Dickson from Adjutant Gen. P. G. Harris:

"War Department, the Adjutant General's Office, Washington.

"June 19, 1919.

"Mrs. Charles E. Dickson, 403 South Seventh street, Springfield, Ill.

"Dear Madam: This office has been advised by cable No. 318 by the Commanding General American Expeditnonary Forces that he has awarded a distinguished service cross post-humous to your son, First Lieutenant Harrison A. Dickson, 131st Infantry, for 'extraordiary heroism in action near Chipilly Ridge, France, August 9, 1918. When his company was held up by heavy machine gun fire, he ordered his men to lie down and went out aloone, facing intense fire in an effort to capture the hostile est. Shortly after starting forward he was shot thru the heart.'

"The Quartermaster General of the Army has been directed to cause the distinguished service cross to be forwarded to you, and it is believed that you will receive it in a short time.

"Very truly yours,
"P. C. Harris,
"The Adjutant General."

DEATHS

Sanford.

A. R. Gregory has received word of the death of his sister, Mrs. Elizabeth M. Sanford, who passed away at her home in San Diego, Cal. She was the widow of the late E. M. Sanford of this city, and was born here in 1838, the daughter of John and Elizabeth LaRue Sanford. The deceased was married to E. M. Sanford, who was first in the marble business in this city and afterward attorney at law. In the '80s he moved to Jamestown, North Dakota, where he lived for a number of years, going later to California where he died.

The deceased was a member of the Baptist church in the early days but went with her husband to the Methodist church. She was a woman of fine character, very intellectual and one who made many friends.

Mrs. Sanford is survived by three sons: Reuel of Oklahoma; Frank H., a conductor on the Denver & Rio Grande, and Ernest, whereabouts unknown; one daughter, Mrs. Nellie Bergster of Jamestown, North Dakota, and who was with her mother at the time the latter died. The funeral and burial will be in San Diego, where Mr. Sanford is busied.

Funerals

Bolman.

Funeral services for Miss Mildred Bolman were held from Gillham's undertaking parlors Tuesday morning at 8:45 o'clock in charge of the Rev. M. L. Pontius assisted by the Rev. Claude Keltner, Literberry; Rev. C. G. Cantrell, Chapin, and the Rev. William J. Evans of Winchester.

Music was furnished by Miss Ferne Haigh. Miss Catherine Rapp, C. L. Mathis and W. W. Gillham.

Following the services the remains were taken on the 10:15 Chicago & Alton train to Pearl where burial was made in Green Pond cemetery, near that place. The bearers were C. L. Mathis, George T. Douglas, George Harney, Rev. Claude Keltner, Rev. C. G. Cantrell and Rev. W. J. Evans.

C. P. Hedrick of Meredosia spent Tuesday with friends in the city.

Mr. and Mrs. Roy Crouse of Concord paid a visit to the city yesterday.

Household Needs for Summer Time

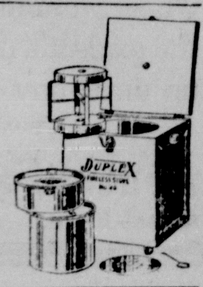

We have just added to our stock of "summer comfort" goods, the Duplex Fireless Stove. This stove will cook, bake, roast, boil, steam—in fact anything your hot coal range will do—and at practically no expense at all.

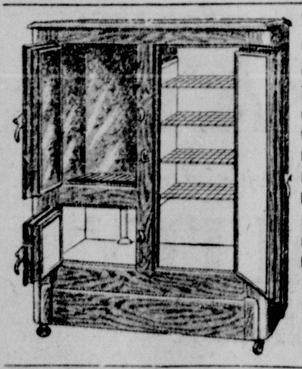

The **Clark Jewel** and **Revonoc Oil Stoves** are giving splendid satisfaction wherever used. We carry them in sizes to meet every family need. An Oil Stove is a hot weather necessity in every household — keeping the kitchen cool and comfortable at all times. It makes an intense heat–but only where wanted — directly against the bottom of the cooking vessels.

Duplex Fireless Stove

You can cook your entire meal in a Duplex, which has many superior points over any other fireless cooker. The cooking vessels are larger and deeper. The stone disks are protected from chipping by an aluminum band and can be heated in 10 to 20 minutes over gas, gasoline, alcohol or oil flame sufficiently hot to cook the entire meal.

In refrigerators we offer you the two best makes we know of — the **Sitka** and **Success.** Both of these ice boxes are modeled according to scientists most approved methods for the conservation of ice— built like a steel vault — handsome in appearance — strictly sanitary in every arrangement. Their only difference is in points of style. If in the market for a refrigerator, we want the privilege of showing you our splendid values.

WORK PROGRESSES ON ELI PLANT.

W. E. Sullivan and Lee Sullivan of the Eli Bridge Co., were here from Roodhouse yesterday to inspect the progress of the work on the company's new plant. The work has been delayed somewhat during recent days because of non-arrival of a shipment of brick from Danville. Prior to this shortage the work had progressed very rapidly and the office building walls are about ready for the roof and some brick has been laid on the concrete foundation of the main building. Those who have inspected the property since the foundations have been put in have come to a new understanding of the size of the building that the company will erect here.

Mr. Sullivan said yesterday that as soon as the office building is complete that he is expecting to spend most of his days in Jacksonville, as he has very cramped and unsatisfactory office facilities at the building in Roodhouse.

GRANTED DEGREE

Among those who were granted degrees in the commencement exercises at the University of Illinois were Miss Margaret Josephine Pires of this city. Miss Pires following a course of several years, has taken the degree of M. S. in home economics.

Mrs. D. O. Lewis of Normal is the guest of relatives in Literberry for a few days.

CAPT. EARL VICKERY VISITING PARENTS

Veteran of World War Spending a Few Days in Former Home—Is Still in Service.

Capt. Earl Vickery and daughter of Chicago are in the city for a visit with Capt. Vickery's parents, Major and Mrs. E. C. Vickery of the Colonial Inn.

Capt. Vickery is not only a veteran of the present world war but his military career dates back to the Spanish-American war as he was a member of old Company I in that conflict and the youngest member of the company.

Overseas Capt. Vickery was attached to the staff of General Bullard and was on several battle fronts. The division was first brigaded to the British forces and engaged in several battles with the Australian troops.

Speaking of the Australians, Capt. Vickery corroborated all that others have told of the superb fighting qualities of the "Ossies" as they are affectionately dubbed. One thing he told, however, that is not generally known, and that is that many of the officers of the Australian troops were former residents of the United States. Many of them, he said, came from Oklahoma and Texas. This probably accounts for their fighting qualities.

Of the American boys Capt. Vickery cannot express himself when he tries to tell of the wonderful work they did. In his opinion they are the greatest fighters in the world and the gamest.

He told of finding three American boys in a shel hole who had been hit by a shell. Two of them died before they could be taken out and to a first aid station. One of these men had one leg entirely shot away below the knee and the other horribly mangled. But not a word of complaint and not an expression of pain came from them. They passed out without a word.

This is only one of many incidents that Capt. Vickery probably could tell to illustrate the wonderful bravery of the American soldiers. They played the game of war just as they played football, baseball and other games. Fair and in the open but with a dash and a brilliancy that made it impossible for the enemy to stop them when once they got started.

Capt. Vickery is still in the service and is at Camp Grant and expects to return there probably this evening. However, he expressed the hope that he would be able to return here for the Home Coming celebration July 4th. His many friends also hope that he may be here as the occasion will seem complete with this veteran, who tho a resident of Chicago for a number of years, Jacksonville still regards as her very own.

STORM DID DAMAGE

Various reports were received of the heavy rain storm Tuesday evening. The downpour was much heavier and the wind stronger in the counties north of Morgan than was true in this vicinity. At Covel, south of Bloomington, a veritable cloudburst was reported and a stretch of track was washed out.

Otto Nickel of Concord was in the city Tuesday for the transaction of business.

Medicines Used by Monks

It is claimed that Monks of ancient days knew of more than three hundred species of medicinal plants used in general for medicines by these religious orders. While centuries have passed, with all the advance made in medical science, many of our most successful remedies are today made from the roots and herbs of the field, like that good, old-fashioned remedy, Lydia E. Pinkham's Vetegetable Compound, which for more than forty years has been relieving women from some of the worse forms of femals ills, and is now considered the standard remedy.—Adv.

IN FURNITURE MARKET

C. E. Hudgin of the Hudgin Furniture Co., left Tuesday for the furniture markets at Grand Rapids, Mich., where he will remain several days, afterward going to Chicago and other lake points for a week's rest. The Grand Rapids furniture market usually does not open until about July 10, but conditions this year caused an earlier opening and, according to a current Grand Rapids paper, more than 150 buyers from all parts of the country already have arrived and registered.

We Sell Implements

Twice Guaranteed

Buying Implements from Us is Like Taking a Two-Name Note —Its Safer

No matter how well you may know a man, nor how much confidence you might have in him, if he wanted to give you his note guaranteeing future payment of a loan, you'd just a little rather have some other reliable party share the responsibility with him.

When we sell an implement, we guarantee it to be all we claim it to be.

But behind us stands the manufacturer of that implement — he shares the responsibility with us. This two-name guaranty applies to every implement we sell—no matter whether it be an engine plow or spike-tooth harrow. Big and small purchasers are protected equally.

We wouldn't handle goods of the manufacturer who wouldn't stand back of everything he claimed for them.

And so you have real assurance that you are getting just what we say you are getting when you buy from us. Both our reputation and the manufacturer's reputation are at stake.

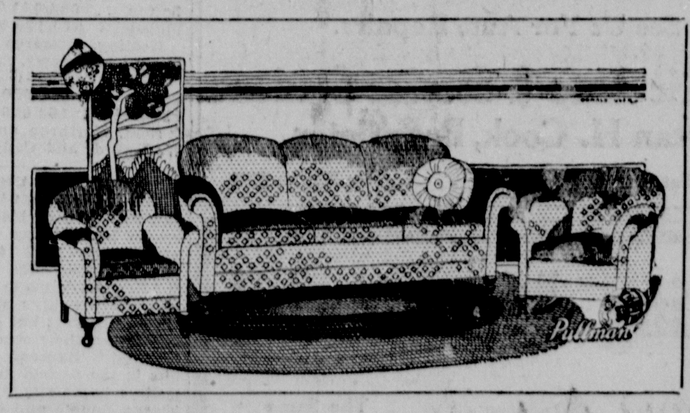

Drop around to the store some day —we want you to see what we have.

Young druggist experiments on self and a marvelous remedy is the result, says:

"I suffered so much that I now can appreciate other peoples' condition and am willing to give them the results of my endeavors."

Writes Mr. J. E. Craig of 3949 Magnolia Ave., St. Louis, Mo.

"SYSTM, the liquid rgeulator is as necessary to the body as oil is to an automobile or any piece of machinery. I found the best results are obtained by taking SYSTM in the following manner: Tablespoonful four times a day, the first day of the treatment then by taking a tablespoonful at night and repeat the dose before breakfast every fifth day."

"SYSTM is a postive relief for liver and kidney trouble. Also, it regulates the bowels and brings the blood into perfect circulation and nourishes the whole system.

"Keep your body in good condition, watch the kidneys, they filter and purify the blood, all of which blood passes through them once every three minutes. Keep them clean and in proper working condition and you will be as when in the spring time of youth.

BLUFFS YOUTHS ARE SENTENCED TO PRISON

Alva York and Edward Ballard Given Term at Leavenworth Prison for Breaking Into Box Cars—Heavy Rainfall Sunday —Other Items of Interest.

Bluffs, June 24.—Children's Day exercises were held at the Lutheran church Sunday morning June 22nd. The date was postponed until then on account of repair work being done on the church interior. A very pleasing program was rendered to a large and appreciative audience.

Mr. and Mrs. Charles Shaw and children were Hannibal visitors Sunday.

Alva York and Ed Ballard were sentenced to the prison at Leavenworth for a term of two and three years respectively, for breaking into box cars. An example has been made of them by the Wabash Co. as petty thieving was altogether too frequent at this point.

Mrs. G. W. Reese has returned from Canton where she has been the guest of her parents, Mr. and Mrs. A. J. Christy.

Jesse Arnold and Harry Wedeking have returned from overseas.

Mrs. Anna McLaughlin and daughter, Miss Grace, left Monday evening to attend the "home coming" in Springfield and also to visit relatives.

The heaviest rain of the season fell Sunday afternoon and for a time the town was flooded by the overflow water from Wolf Run, the small creek that flows through the south part. The Wabash road west of town was damaged and trains were delayed several hours.

The cottage which is being remodeled by John Carnes is nearing completion and soon will be ready for occupancy.

Mrs. Pearl Black and children have returned from Farmer City and other points where they have been the guests of friends for the past ten days.

Miss Evelyn Bossee will entertain a number of little friends at her home Friday afternoon in honor of her birthday.

Mrs. B. S. Hayes and children have returned from Clayton where they have been visiting relatives the past week.

The ladies of Woodson Presbyterian church will serve dinner Thursday, June 26 at the home of Mr. and Mrs. John Hoagland, three miles east of Woodson. A cordial welcome extended to all.

Social Events

Orleans Woman's Country Club Entertained.

Members of the Orleans' Woman's Country Club were entertained Tuesday afternoon by Mrs. W. H. Hinrichsen at her home in Alexander. There was a large attendance of the members and guests and an interesting and profitable session was had. Mrs. George Holley was the leader of the afternoon and her paper on "Famous Women of America" was very entertaining. Three vocal numbers were rendered by Rev. J. A. Betcher, pastor of the Alexander M. E. church, and added much to the pleasure of the event. Mrs. Ernest Strawn acted as accompanist. Following the program the guests enjoyed a social hour, during which refreshments were served by the hostess.

The annual picnic of the club will be held at the home of Mrs. William Scott, east of the city, Tuesday July 7.

Clio Circle of Literberry Meets.

The Clio Circle of the Literberry Christian church met Tuesday afternoon at the home of Mrs. C. E. Keltner. It was the regular July meeting but was held earlier than usual because Mrs. Keltner desired to entertain the members prior to July 1, when she will leave for Hooker, Okla. There was a very good attendance and the afternoon was a pleasant and profitable one for all. The program opened with the singing of America by company. There were readings by Miss May Myers and Miss Annabel Crum and the Scripture lesson was read by Miss Emma Johnson. Several musical selections were given by Mrs. O. L. Crum on the piano and were well received.

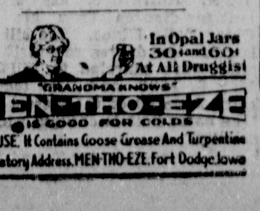

It has not been decided where and when the August meeting will be held, and announcement will be made later as to this matter.

THE LAST WEEK OF THE TONEAL MAN

LADIES' MILLINERY CONTEST FRIDAY NIGHT—TONEAL TREATMENT PROVES PHENOMENAL SUCCESS IN THE CITY OF JACKSONVILLE—BIG FOOT CONTEST TONIGHT.

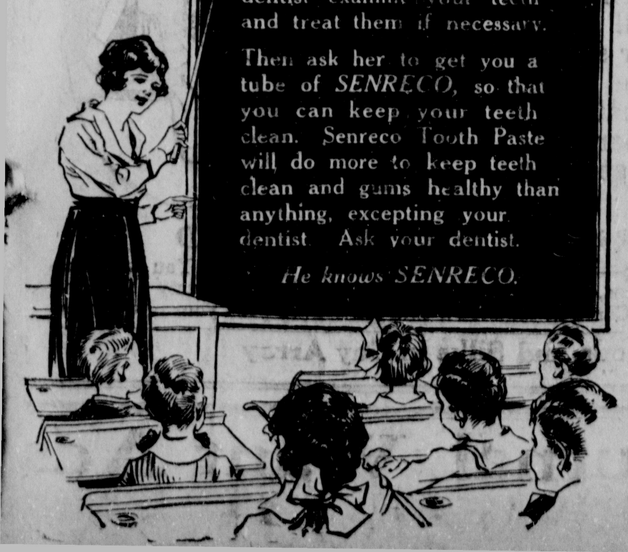

Never before in the history of Jacksonville has a man created so much comment as Daly, who has been demonstrating the marvelous Toneal treatment for the past three weeks at his headquarters at the show grounds known as the Billy Sunday lot. Many cures bordering upon mircaulous have been accomplished upon prominent citizens, who vouch for Toneal. People who were so sick that they had given up all hope of ever getting relief at last found it in Toneal treatment. Men, women and children speak very highly and recommend it. The names and addresses of these people have been published previously in the columns of the different papers, and they will verify the facts in each case. They are citizens who would not allow their names to be used if it were not for an honest purpose. This is postively the last week to see the Toneal man, as his engagement here in Jacksonville closes next Saturday night. People who are sick should take advantage and call one this week if they wish to see the doctor. His hours are 10 to 12 mornings and 2 to 4 afternoons every week day at Pacific hotel.

Free Concert Tonight.

The daily free concert and lecture will be given tonight. All are invited to attend. An excellent program has been arranged, the big foot contest being the feature.

Ask an Owner
A Motor Truck represents an investment in hauling equipment. The truck that does the work year in and year out at the lowest cost proves to be the best investment. Ask any owner of an International Motor Truck and he will tell you the International cuts the cost of hauling dow nto the lowest practical point.
International first cost is low because of quantity production. Quality is maintained at a high standard because every important part of the truck is manufactured and each truck assembled in one great factory under centralized supervision. Every lot of material of every kind is subjected to the most rigid tests, and unless it passes those tests it is discarded. No inferior material or workmanship gets into
International
Motor Trucks
These things are done because the International Harvester organization is building not alone for the present but for the future. We want every International Motor Truck owner to feel that he has the best truck he can buy and to be able to prove it at any time by any fair test that can be suggested or proposed.
Some day you will buy a motor truck. If you are the kind of a man that is not satisfied with anything but the most economical truck for hauling and delivery work, drop us a line, call up, or come in and see us. AUTO TOURISTS.

A large party of automobile tourist from Denison, Texas, passed thru Jacksonville Tuesday enroute east, stopping here only long enough to take on a supply of gas and oil. They were E. E. Davis and family, in a Marmon touring car, going to Maine for the summer; William Campbell and wife and Mrs. Walter Kinney, in an Essex touring car going to New York and Boston; Dr. H. W. James and family in a Cole "8" touring car, en route to Goshen, N. Y., and Robert Harvey and family, in a Premier Sedan, going to New York City.

Members of th party spoke in terms of praise for the beauty of Jacksonville, its trees and yards comparing it to the older cities in the east, but stated it was a shame that such a great state should tolerate such abominable roads. This party tours some portion of the United States each summer and mentioned several states which have splendid roads even in rather bad weather.

THOMAS K. CONDIT DIES AT BEARDSTOWN

Prominent Banker Answers Final Summons—Was Born in Winchester — Began Business Career as Clerk.

Thomas K. Condit, cashier of the First National Bank and prominent citizen of Beardstown, died at his home in that city Sunday after a long illness.

Thomas Knowles Condit was born in Winchester Scott County, February 11, 1856. His family was one of the early families of the United States, being known at Newark, N. J., in 1678.

He attended school until he was 14 years of age and then began his business career as a clerk in a Winchester dry goods store. In 1873 he went to Chicago and took a business course in the Bryant and Stratton Business College, completing the course in a shorter time than any pupil ever had in the school.

After finishing school Mr. Condit obtained a position with the Chicago Times in the distributing rooms, having charge of the mailing list of country subscribers. After a few weeks he returned to Winchester and took a position as bookkeeper in the First National bank of that city.

In 1874 he went to Beardstown and became cashier of the private bank of Skillings, Carter and Arenz. His long career in Beardstown banking circles dated from that period. When the bank was reorganized as the People's Bank in 1877, Mr. Condit was one of the organizers and was made cashier of the new institution.

He continued in that position until 1887 when the bank was changed to the First National Bank of Beardstown. He was one of the original board of directors and was cashier of the bank until the time if his death. Only one member of the original board of directors now remains, John Schultz, who is president of the bank.

In addition to his banking career Mr. Condit was connected with many other activities. He was organizer and secretary of the Mutual Loan and Savings Association. He was also interested in the Beardstown Electric Light and Power Company. He also served as collector of Internal Revenue in Beardstown and was a member of the city council for several terms.

Mr. Condit was a member of the Methodist church and was faithful in his worship. He was a member of the Knights of Pythias, Ben Hur Modern Woodmen and Elks, and was active in every community project.

February 22, 1877 he was united in marriage to Harriet S. Dutch of Beardstown. She preceded him in death in 1902. To this union the following children were born, Floyd Morton, J. Sidney and Richard L., the latter died at the age of two years. Mr. Condit was again married October 15 1903 to Ethel Ayers of Pasadena, Calif.. To this union one son was born, Thomas Ayers.

Funeral services were held from the residence in Beardstown Tuesday afternoon at 2:30 o'clock in charge of the Rev. A. L. Caseley with burial in Oak Grove cemetery.

JULIAN MALONE WEDS WISCONSIN GIRL

Marriage Took Place at Congregational Church in Grand Rapids—Will Live in St. Louis.

The Wood County Reporter of Grand Rapids, Wis., gives the following account of the recent marriage of Julian Y. Malone of this city to Miss Nellie F. Palmatier of Grand Rapids.

One of the prettiest weddings of the season took place at the Congregational church this morning at 10 o'clock, when Miss Nelle Frances Palmatier and Julian Yerkes Malone of Jacksonville, Ill., were united in marriage, Rev. Noel J. Breed officiating. They were attended by their mothers, Mrs. Charlotte O. Malone and Mrs. Minnie Palmatier, respectively, and Miss Alma Krieger of Madison as maid of honor and Mr. Frank Walsh of this city as best man. The bridal party entered the vestibule separating just inside the church proper, the bride accompanied by her mother, preceded by the maid of honor, and the groom attended by his mother, preceded by the best man, met at the altar.

The ceremony was the double ring service, which was most impressive. The wedding march was played by Miss Elizabeth Schroenoff of Menomonie, Wis., a pupil of the bride, and during the ceremony she played "Spring Song" very softly, which effect was most delightful. The church was profusely decorated with ferns and flowers. The bride was charming in a dress of white Georgette Crepe, and carried a shower bouquet of Ophelia roses. The maid of honor wore a gown of blue and gold Georgette Crepe and carried a bouquet of snapdragons.

The mothers carried bouquets of mignonette. Mrs. Palmatier wore a gown of black and white Georgette Crepe, Mrs. Malone's gown was lavender Georgette Crepe. After the ceremony, an elaborate four course breakfast was served at the home of the bride's mother. The color scheme in the dining room was most artistically carried out in pink and white roses. The home was a bower of flowers. The reception rooms, presented an effect of fairy land, with the strains of thrilling music all through the breakfast, after which the most happy social hour with the newly weds and friends was spent.

The wedding party accompanied Mr. and Mrs. Malone to the train, showering good wishes and blessings on their journey through life. This city being the birthplace and home of the bride, she needs no introduction. She is a graduate of the University of Wisconsin, and became supervisor of music in the schools of Menomonie, Wis., which position she held for four years.

The groom was born and raised in Jacksonville, Ill., graduated from the high school of that city. Then attended Ripon College, Wis., from which he graduated earning a fellowship and scholarship in the University of Wisconsin, pursuing his medical course, graduating fro mthere entering the "chemical warfare service," serving for nearly two years, ranking a First Lieutenant, receiving two wounds in the scientific use of war gases, then attending Washington University, St. Louis, Mo., as assistant of the department of Phermacology from which he has accepted a fellowship assistant in brain surgery for the coming year, also continuing his medical school course.

The bride and groom will spend some time on the lakes and in Madison entertained by their many—friends and associates and fraternity Phi Beta Pi, after which they will make their home in St. Louis, Mo., where they will be at home to all their friends.

VISITING THEIR FORMER HOME

Mr. and Mrs. G. F. Rodman of Detroit, Michigan, are in the city renewing former acquaintances. While here they are the guests of Mr. and Mrs. Clarence York on South Diamond street. When Mrs. Rodman was a resident of Jacksonville she belonged to a social club and Monday evening as many of the members as could be found were invited with their husbands to a picnic at Nichols Park. A good number attended and all enjoyed a very pleaasnt time. The visitors were much pleased to know that Jacksonville has such a desirable place for a resort.

REV. M. L. PONTIUS BACK FROM SALT LAKE CITY

Rev. M. L. Pontius has returned from the sessions of the International Rotarian convention at Salt Lake City where he spent five days with wonderful satisfaction. There were more than 4,000 delegates in attendance and the time was occupied by great men from all over the world. Among the speakers were men from Glasgow, Porto Rico, Cuba and other far away places. The men who failed to register had a hard time getting a place to sleep huge prices being asked for meager accomodations

SHOULD NOT BE.

The attention of the Journal has been called to the fact that solicitors have been asking returned soldiers for money for the Fourth of July celebration. This is surely a mistake. The boys are to be the guests of the county and not asked to pay their way.

SUIT FOR DIVORCE

Edgar Hines by his attorney, W. N. Hairgrove, has brought suit for divorce from his wife, Claar Belle Hines. The bill asking for the decree sets forth that they were married in Hillsboro, May, 8, 1890 and lived together until June 13 of the present year. The defendant is charged with infidelity.

LOCAL CITIZENS SEE SPRINGFIELD PARADE

Only Military Organizations in Line of March—Gold Star Ceremony at Washington Park a Fitting Tribute to Sangamon County's Slain Heroes.

Quite a number of Jacksonville citizens availed themselves of the opportunity yesteray to visit Springfield and witness the parade and home-coming celebration. The parade was strictly a military event and there were no floats or any organization in line other than those of a military character.

Several of those interested in our own parade to be held the Fourth made the trip to Sangamon county yesterday perhaps to see where the Springfield parade could be improved on and benefit thereby or perhaps to get additional pointers for the celebration here. E. E. Crabtree, Captain Wesley James, Mrs. J. H. Danskin, Mrs. Clyde Singley and others were in attendance.

The parade started promptly at 12:30 o'clock, going south on Capitol to Fourth street, south on Fourth Street and South Grand Boulevards and west on South Grand to Washington park. It was estimated that there were 3,000 men in line. The parade formed on Second street near the Arsenal under command of Col. R. J. Shand. Columns placed at intervals along the route in South Grand Boulevarde from which were large strands of various colored electric lights and bunting spanned the streets, served as many arches of triumph under which the heroes passed.

As the provisional units swept by the reviewing stand they paid tribute to Major General George Bell, Jr., and Brigadier General H. D. Todd, Jr., with a military salute and "eyes left."

Five Bands in Line.

Five military bands marked the step of the marching soldiers, sailors and marines. In addition to these was the Laomi fife and drum corps and the famous Armour Girls Drum and Bugle Corps of East St. Louis.

Arriving at Washington Park the parade disbanded, the marchers witnessing the Gold Star ceremony. This consisted of a tribute voiced by Governor Lowden and the firing of bomb salutes in memory of those lads from Sangamon county who gave their lives in the war. A number of the bombs, shot high in the air, upon exploding, released small parachutes to which were appended the name of a Gold Star soldier, his rank and organization, and the battle in which he lost his life. Boy Scouts secured these tokens and returned them to relatives. Each bomb released ten such parachutes.

Close to 30,000 people participated in the Sangamon county home-coming in Washington park during the afternoon according to opinions of Jacksonville people who were present.

While the rain in the evening dampened the ardor for the dancing which was to have taken place in South Grand Boulevarde it did not dampen the spirit of the civilians, soldiers, sailors and marines who were holiday bent.

The entire city was decorated in honor of the occasion, business houses and private dwellings being decked with the national colors.

McKENDREE BLAIR TO SPEND MONTH IN OHIO

McKendree Blair, son of Mr. and Mrs. G. M. Blair of 629 Hardin avenue, has been enrolled as a student at the University of Illinois during the past year. He will leave Champaign Monday to spend a month at Columbus, Ohio in attendance upon the Methodist Centenary celebration there. Mr. Blair goes as a Centenary cadet, being one of thousand young men selected from as many districts into which the United States was divided. These young men, who will act as guards, messengers and guides during the celebration were chosen thru tests which required previous military training, good health and educational qualifications.

The Cadets will be quartered at the Columbus aviation barracks, famous as the training place of many noted aviators. One interesting event during the celebration will be the review of the cadets by Major Leonard Wood, U. S. army commander, who is the honorary colonel of the regiment into which the cadets are formed.

Yes ma'm! I'm through with this old "sad" way of ironing!

The last place I worked they wanted me to stand out by a hot stove and carry "irons" back and forth all day — said that's what they paid me for. Indeed they didn't pay me for that—not when I had been using an electric iron at home for 'most two years.

I quit!

Like an electric iron? Indeed I do! Didn't I say I bought one myself?

Working Man's Wonder

For two days, Thursday and Friday of this week, we have 200 pairs Khaka Pants we will sell at $1.35 per pair, or three pair for $4.00

By an oversight of the manufacturers we were sent a duplicate order of 200 pairs. The manufacturers prefer taking a loss rather than have them returned, hence you can buy a $2.00 pant for $ 1.35.

We are too busy with our regular run of business to give this pant sale much time, but Thursday and Friday they go on sale and we expect to clean them up, and if you don't get in on those days its your loss.

The Standard Oil Company (Indiana) Automobile Industry

PROBABLY no existing industry serves such a useful purpose in so many ways as the automobile industry, and certainly no industry has had such a meteoric increase in proportions.

Such an increase would have been impossible of accomplishment if a market for moderate priced cars had not been found, and without the Standard Oil Company (Indiana) it would have been impossible to find this market.

When only the rich could afford an automobile the Standard Oil Company (Indiana) had the vision of most everyone driving his own machine.

The Company set out, not to find a way to make gasoline prices higher, but to keep them low in the face of the enormous demands made by the automobilists, which in the average industry would have caused abnormal increases in price.

The efficiency of the Standard Oil Company in making a constantly increasing number of by-products has kept down the price of gasoline and enabled the man of modest means to run an automobile after he got it.

The Standard Oil Company not only makes gasoline to sell at a low price, but to fit the requirements of the modern automobile engine in such a manner as to enable the owner to get out of his car all that the manufacturer designed it to produce.

This is a salient example of the usefulness of the Standard Oil Company not only in contributing to the success of other industries, but in discharging its obligation as a public servant so that all may benefit from its efficiency and by its operations.

Professor H. Strauss, M. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there." When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; when you suffer with sick headache, or dizzy, nervous spells, sour stomach; or you have rheumatic pains or lumbago, gout, sciatica when the weather is bad, do not neglect these warning, but try simple means. Take six or eight glasses of water during the day, then obtain at your nearest drug store 'An-uric' (anti-uric acid). This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "An-uric" is an antidote for this uric acid, dissolving and dissolves uric acid in the body much as hot coffee dissolves sugar. PECULIAR DOCUMENT.

A Journal reporter was shown yesterday a curious document or diploma of members in the Oriental Order of the "Palm and Shell S. A. N. D. S." It was issued to John D. Henry (now deceased) of Waverly, May 10, 1884. It is issued under the four conservations of Charity, Hospitality Benevolence and Brotherly Love. Mr. Henry is mentioned as a zealous Free Mason. On the borders are four paragraphs, one each in Hebrew, Greek, Arabic and Latin. It is embellished with a picture of a palm tree, a huge shell on which are the letters F. S. H. L. C. The name is on a scroll and that is adorned with a picture of head of wheat, a crescent and star within.

R. Morris is supreme chief and H. N. Coleman, supreme chancellor. The list of associate supreme chiefs is formidable. It comprises Robert P. Gibson, M. D., New York, for the United States; W. Hyde Pullen 33rd Degree Mason, England and Ireland Robert S. Brown, Edinburgh, Scotland; Rolla Floyd, James Spain; Edward T. Rogers, Cairo, Egypt; Charles G. Carreret, Syyrna, Asia Minor.

The whole thing is a curious document and one which has about it much mystery and it is highly prized by the friends of Mr. Henry.

J. J. REEVE GIVES STATUS OF PAVEMENTS

Former City Attorney Tells Council of tSatus of the Various Paving Improvements Recently Built or in Process of Building.

At the city council meeting Monday evening a communication was read from John J. Reeve, former city attorney, giving the status of the various paving improvements that have recently been built or have preliminary steps for building under way.

When the present city council went into office the former council had passed a number of ordinances for pavements. Several were ready for work and some were ready for court proceedings.

The present administration not being familiar with these matters Engineer Henderson asked Mr. Reeve to give him a detailed statement of the status of the recent paving work. Mr. Reeve's letter covers the matter in a comprehensive manner and as it is of general interest it is herewith produced in full.

Mr. Reeve's Letter.

Jacksonville, Illinois.
June 21, 1919.

E. M. Henderson, Esp., h
City Engineer,
Jacksonville, Illinois.

My Dear Sir:

You have asked me with reference to the status of certain local improvement proceedings.

The work on West State street has been completed and certified by the Board of Local Improvements to the County Court and the same is now and has for three or four months been pending upon an adjustment of conditions of the Street Railway Company's tract just east of the intersection of Prairie Street with West State Street. Mr. Brockhouse, for Mrs. Weir, the owner of the property on the corner of Prairie and West State Street, is the only objector, and the objection is because the water, after a rain, stands upon the railway track and right of way.

There was passed by the old Council an Ordinance for the construction of an asphalt pavement on what is known as the extension of West State Street, from the west curb line of South Webster Avenue to the City Limits. This improvement had reached the point of an Ordinance being passed by the City Council and is now in that condition. The next step in procedure for this improvement will be to file a petition in the County Court and the appointment of a Commissioner to spread the assessment, the filing of the Assessment Roll and the giving of notices for the hearing.

The South Main Street pavement from the Public Square to the center of Morton Avenue was in process of construction on the 1st of May, and the next step in procedure there will be the acceptance of that work by the Board of Local Improvements, the filing of their certificate of completion and the giving of notices for the final hearing.

Church Street, from West State Street to the right of way of the Wabash Railroad Company, is in process of construction and when completed, the process will be the same as that on South Main Street.

East State Street, from Alley D to the C. B. & Q. R. R. right of way is in the same condition as Church Street. There is an Ordinance which has been passed by the City Council for the construction of a street pavement from the railroad right of way on East State Street to Johnson Street which, if I remember correctly, calls for asphalt. This improvement has reached the stage of the passage of an Ordinance and is ready for filing the petition in the County Court the preparation of the assessment roll and such other proceedings as naturally follow.

The same is true of that part of East State Street from Johnson Street east to the City Limits, and the same is true of Morton Avenue from Hardin Avenue to a point, as I remember it, 500 feet west of what was formerly the City Limits.

There has been passed by the City Council an Ordinance for the construction of an asphaltum pavement on College Avenue from Hardin Avenue West to the City Limits. This improvement has reached the point of passage of the Ordinance and the next step is the filing of a petition in the County Court and the spreading of the assessment roll, together with the various notices, etc., required by law.

All of the other street improvements have been completed and final acceptance has been had in the County Court.

Yours very truly,
John J. Reeve.

CORN DEVELOPS ACUTE WEAKNESS

Belief That Bullish Effects of Peace Had Been Well Discounted in Advance Causes Drop.

Chicago, June 24.—Acute weakness in the corn market today resulted largely from general belief that bullish effects of peace had been well discounted in advance. After a fall of about six cents from yesterday's top the market closed nervous 3c to 4c. net lower, with Sept. $1.74 5-8 to 1.74 7-8 and December $1.52 1-2 to $1.52 5-8. Oats last 2c to 2 3-4c. and provisions 15 to 77c.

Sharpest breaks in corn prices occurred after mid-day when liquidating sales by holders broadened out and the fact was evident that the market lack the rallying power which had been conspicuous of late. A contributing reason was a pronounced drop in hog quotations. Besides weather conditions were the right sort for the growth of the new corn crop.

Oats tumbled with corn. Omaha interests led the selling. Weakness was the rule in provisions owing to the downward course of grain and hogs. The lard market especially was weak.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

SHORTS RENEW ATTACK ON STOCKS

Recent Speculative Favorites Bear the Brunt of the Setback.

New York, June 24.—Elimination of the war as an uncertain factor and intimations that local banks are discouraging further operations for the rise, pending mid-year settlements provided theshort interest with ammunition for renewed attacks on the stock market today. Motors, oils shippings and other recent speculative favorites bore the brunt of the setback. General Motors, Studebaker, Texas company, Mexican Petroleum Royal Dutch, Sinclair, Atlantic Gulf and American International suffering extreme reversals of 3 1-2 to 8 1-2 points.

Buying of high grade rails, especially trans-continentals, grangers, coalers and several of the trunk lines created a diversion subject to temporary reactions.

Other distinctly strong features embraced food and tobacco issues, also the rubber shares with United States Rubber at a new high record. Sales amounted to 1,300,000 shares.

Bonds, including Liberty and International issues eased slightly on moderate dealings. Total sales (par value) aggregated $9,250,000.

Before the first Brunswick Tire was ever built, we analyzed and tested over 200 tires.

Since 1845 the name of Brunswick has stood for superlative values and fair-dealing.

Tires Differ As Policies Differ

Some Remarkable Facts About Brunswicks

THERE is nothing to prevent any maker from producing a super-tire. All formulas, all methods are well known in the industry. A perfect tire is simply a question of care and skill and cost. These facts can be verified by testing 200 types of high-grade tires and analyzing their materials and construction—as the Brunswick laboratories have done.

In a super-tire, such as The Brunswick, there can be nothing exclusive. Because such a tire must be a composite of all that is best. No one feature must overshadow others.

In Brunswick Tires, for instance, we have included that familiar formula, long in use, which makes the best tire tread that's known.

And there's a certain type of fabric which, by test, is stronger than all others. Naturally it is in The Brunswick.

To attain the utmost in tire mileage there are certain reinforcements — certain extras. We have adopted all.

To combat the commonest tire troubles, we have adopted the approved side-wall construction, long tested.

In other words, The Brunswick brings you a combination of supremacies, such as were never possible before.

In attaining a tire worthy of the name of Brunswick we were convinced that it depended chiefly on policies and standards, on prejudices and knowledge. Brunswick Standards are known the world around. For 74 years the House of Brunswick has worked in rubber—long before automobiles were known.

Every Brunswick product has attained and held supremacy. The name always insures superlative values. To build a mediocre tire would be unthinkable for such a concern, jealous of its long-standing reputation.

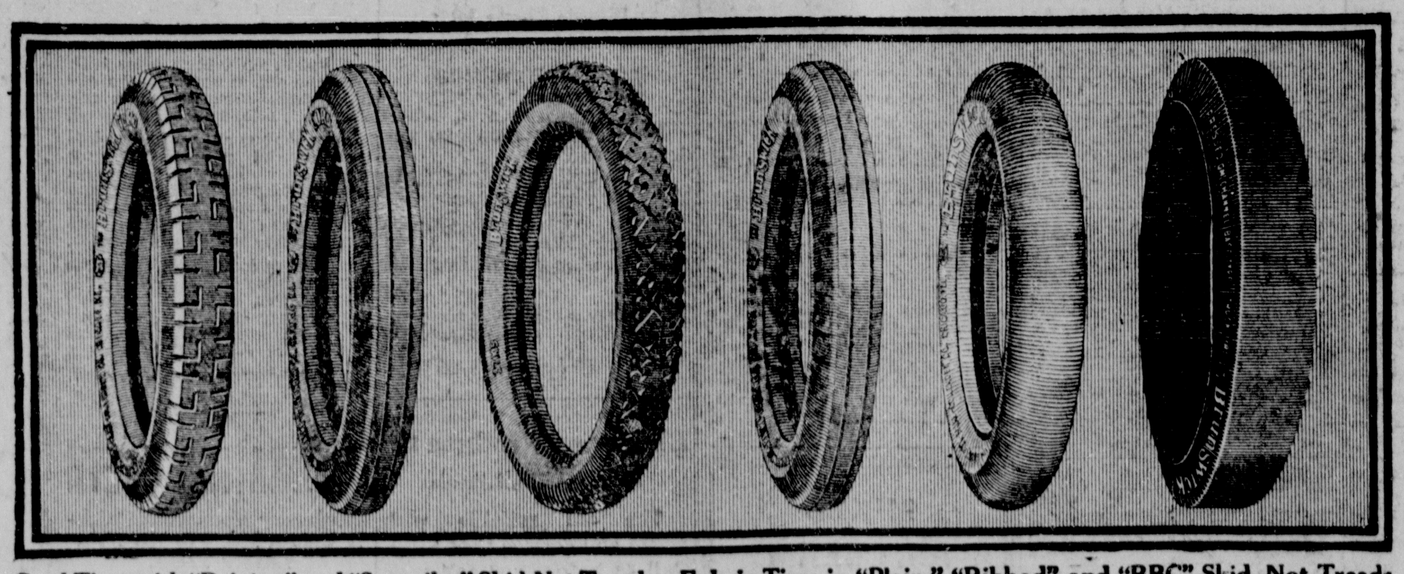

The Brunswick idea is to give all that is possible, all that anyone can give — all that any factory cost can buy.

The result is a tire that is winning friends the nation over. In The Brunswick motorists expect the utmost — and get it. Never has a tire had greater appeal to the man who appreciates real merit.

Try *one* Brunswick. See if you agree with others that here is more for your money. One Brunswick, we are certain, will convince you that you'll never be satisfied until you have *all* Brunswicks.
